- Air Handlers

EXISTING MECHANICAL SYSTEMS

TSI inspects, repairs, retrofits, and refurbishes existing mechanical systems - all types of refrigeration, air conditioning, heating and ventilating systems, support equipment, and components. We repair all types of piping systems, including welded, screwed steel, and copper. We can help you update, upgrade, and optimize your present system.

WE CAN HELP YOU ACHIEVE COMFORT IN YOUR BUILDING

TSI specializes in the custom design, construction, installation, and maintenance of building mechanical systems for industrial, commercial, and institutional applications. We offer energy saving surveys, planned maintenance programs, and customized service contracts with 24/7 emergency service.

NEW CONSTRUCTION OR RENOVATION PROJECTS

TSI will meet with you to analyze your facility needs for a custom design then we build and install the right system for your building or complex. After installation, we will continue to work with you to maintain optimum system performance through a tailored service contract.
